### Education

---

**Accounting bachelor's degree, Accounting bachelor's degree, Faculty of** 2019 – 2023

Commerce, English program, Assiut University.

Major: Accounting Grade: good Graduation Year: 2023

Projects

---

Body Performance Analytics (Team Project)

- **EDA & Model Evaluation:** Performed comprehensive Exploratory Data Analysis on 13,000+ records and led the comparative evaluation of 5 machine learning models (KNN, SVM, Decision Tree, etc.) to determine the most robust solution.
- **Neural Network Development:** Independently architected and optimized a Neural Network using Python, achieving the team's highest performance with a 75.77% classification accuracy and an  $R^2$  of 0.80.

E-Commerce (Team Project)

- **Database Architecture:** Designed and implemented a multi-schema relational database (FashionestDB) from scratch, including complex tables for logistics, inventory, and customer management.
- **Backend Lead:** Developed advanced SQL views and analytical queries for SLA tracking and Customer Lifetime Value, providing the critical data foundation for all team visualizations.

Pizza Sales Dashboard

- **End-to-End Analytics:** Developed a comprehensive sales dashboard for 49,000+ orders, engineering key business KPIs like Average Order Value (AOV) to identify high-value customer segments.
- **Strategic Insights:** Visualized hourly/daily trends and product performance to identify peak operational times and provide data-driven recommendations for menu optimization.

EXTRACURRICULAR ACTIVITY

---

Workshops & Career Development

- Participated in career development and business workshops.
- Improved communication, teamwork, and problem-solving skills.

Technical Skills:

---

Financial & Accounting

- Financial Reporting
- Accounts Receivable / Payable
- Bank Reconciliation
- Payroll Basics
- Financial Analysis

Data & Analytics

- Excel (Advanced)
- Power BI
- SQL
- Python (Data Analysis)

ERP Systems

- Odoo
- Afaky
- InfoSoft
